Committed to Green Supporting LEED Building and Design

Berdick is constantly seeking to reduce negative environmental impact. Green initiatives include:

- Fibreglass pulltrusions and window frame manufacturing entirely within Manitoba (Supports LEED "RPC" - Regional Priority Credits)
- Manufacturing equipment using optimizing technology to reduce waste
- Recycle PVC cut-offs
- Maximize use of water-based paint where effective
- Recycle glass cut-offs
- Recycle cardboard, plastic packaging & office paper
- Recycle metal, wood and pallets
- Use of energy efficient lighting
- Energy audit by Bowcurve Energy Corp. in 2015
